

I subscribe to XM radio because I want quality radio that is free from commercial interruptions. Since I pay for this service I expect the service to be free of commercial interruption. I also depend on XM radio for instant weather and road conditions. I don't have time to wait ten minutes to find out road conditions that I could avoid by having a heads up as soon as I feel the need to check. Since I pay for this service I feel the NAB has no right to dictate what I can listen to when I want information or entertainment. I'm writing to request the FCC to reject NAB's petition 04-160.  
Thank you,

Norman Smith
